REVELO RESOURCES CORP.

(An Exploration Stage Company)

Notes to the Condensed Consolidated Interim Financial Statements

For the Three Months Ended April 30, 2020

(Unaudited - Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN

Revelo Resources Corp. (the “Company” or “Revelo”), was incorporated on September 14, 2006, under the Business Corporations Act (Alberta) and continued into British Columbia on June 25, 2008. The Company’s head office address is Suite 501 – 543 Granville Street, Vancouver, B.C. V6C 1X8, Canada. Revelo is a publicly traded company, listed on the TSX Venture Exchange (“TSX-V”) under the trading symbol RVL. The Company’s principal business activities are the acquisition and exploration of mineral properties in Chile.

These condensed consolidated interim financial statements have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a going concern, which assumes that the Company will be able to realize its assets, discharge its liabilities and continue in operation for the following twelve months.

These consolidated financial statements are prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from the carrying values shown and these consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. The Company’s continuing operations and the ability of the Company to meet mineral property and other commitments are dependent upon the ability of the Company to continue to raise additional equity or debt financing and to find joint venture partners. At the date of these consolidated financial statements, the Company has not identified a known body of commercial grade mineral on any of its properties. The Company has not achieved profitable operations and has accumulated losses since inception.

On April 29, 2020, the Company completed a 10:1 share consolidation of all its issued and outstanding shares. All share amounts and per share amounts have been adjusted accordingly as at February 1, 2019.

As at April 30, 2020, the Company has a working capital deficit of \$105,104, recorded net income of \$1,624,222 for the three months then ended, and has accumulated a total deficit of \$34,447,970. With its current plans for the year and the budgets associated with those plans, in order to continue funding its administrative and exploration expenditures from the date of these consolidated interim financial statements, the Company will need to obtain additional cash and anticipates either financing or selling one or more of its assets. These material uncertainties may cast significant doubt upon the Company’s ability to continue as a going concern.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or ability to raise funds.

2. STATEMENT OF COMPLIANCE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

2. STATEMENT OF COMPLIANCE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Measurement and Presentation

These condensed interim consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company's annual consolidated financial statements for the year ended January 31, 2020 (the "2020 Annual Financial Statements"), which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB.

These Interim Financial Statements have been prepared using accounting policies consistent with those used in the 2020 Annual Financial Statements except as to the accounting standards adopted during the period.

The preparation of financial statements in conformity of IFRS also requires management to make estimates and judgments that may have a significant impact to these Interim Financial Statements. Estimates are continuously evaluated and are based on management's experience and expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates. The Company's critical accounting estimates and judgments were presented in Note 2 of the 2020 Annual Financial Statements and have been consistently applied in the preparation of these Interim Financial Statements for the periods ended April 30, 2020 and 2019 except as otherwise noted.

These Interim Financial Statements are presented in Canadian dollars, unless otherwise indicated.

Reclassification

Certain comparative figures have been reclassified to conform to the current period presentation.

3. MARKETABLE SECURITIES

As at April 30, 2020 and January 31, 2020, the Company had the following investments:

	April 30, 2020	January 31, 2020

Notes to the Consolidated Financial Statements

For the Year Ended January 31, 2020

(Expressed in Canadian dollars)

8. DEBT SETTLEMENT

During the three months ended April 30, 2020 the Company converted \$2,491,511 in notes payable owed to entities controlled by a director and former director of the Company (Note 9) and \$791,476 in unpaid fees owed to certain related parties and consultants into 21,886,581 common shares at \$0.15 per share. A further \$513,399 in unpaid fees was forgiven by certain related parties, resulted in a gain on settlement of debt and included in comprehensive income (loss) for the period.

9. NOTES PAYABLE

Term Oil Inc. and EMX Royalty Corp.

In February 2018, the Company borrowed \$1,500,000 from Term Oil Inc. ("Term Oil"), a private company. At the time of receipt of the advance, the Company paid fees totaling \$45,000 and legal fees of \$20,000. The Company has also agreed to pay a fee equal to 3% of the outstanding balance of the loan on the first anniversary of the loan (paid in May 2019) and agreed to a \$50,000 extension fee in September 2019. The loan had a term of 18 months and was subject to interest of 1% per month compounded monthly. The Company granted security to Term Oil including a general security agreement creating a first priority security interest over all its present and-after acquired personal property, a guarantee of the Company's subsidiary Minera Mena Chile Ltda., and the Austral shares (Note 3).

In October 2017, the Company borrowed \$400,000 from EMX a Company with a common director. This loan carried an interest rate of 1% per month and included a \$20,000 cash bonus due on or before December 31, 2017.

During the three months ended April 30, 2020, the Company fully repaid the loan balance to Term Oil and EMX including principal, interest, and any bonus or extension fees totalling \$1,707,593 and \$536,252 respectively. The Company recorded a gain of \$25,140 on the settlement of the Term Oil loan. The full 10,000,000 Austral shares and other assets pledged as security have been released from the security agreement with Term Oil and the Company has no further continuing obligations to Term Oil or EMX.

Other Notes Payable

During the three months ended April 30, 2020, \$2,491,511 of notes payable owed to entities controlled by a director and former director were converted to 16,610,073 common shares at \$0.15 per share (Note 8).

As at April 30, 2020, the Company had \$277,964 (US\$200,000) in notes payable outstanding of which \$132,777 (US\$100,000) were received during the three months then ended from entities controlled by a director of the Company.

These loan carries no interest and has no specific terms of repayment.

Seabord Services Corp. ("Seabord") is a management services company controlled by a director of the Company. Seabord provides the following services: a Chief Financial Officer ("CFO"), a Corporate Secretary, accounting and administration staff, and office space to the Company. The CFO and Corporate Secretary are employees of Seabord and are not paid directly by the Company. A company jointly controlled by the President and Chief Executive Officer charges Revelo management fees for his services.

The Company compensates senior management personnel through salaries and benefits, or consulting fees and the amount of compensation is mutually agreed upon by the two parties. The Company believes that the amount of compensation paid to its senior management falls within the normal market range for these kinds of services. The contracts for senior management and Seabord Services Corp. are on-going monthly contractual commitments which can be terminated by either party with sufficient notice. There were no changes to the Company's Board of Directors or management during the period ended April 30, 2020.

13. SEGMENTED INFORMATION

The Company operates in a single reportable operating segment, being the acquisition and exploration of mineral properties. Exploration and evaluation assets, exploration expenditures and property and equipment are located in Chile and substantially all of the Company's other assets and expenditures are located and incurred in Canada.

14. FINANCIAL AND CAPITAL RISK MANAGEMENT

Financial Risk Management

The Company's financial instruments are exposed to certain financial risks, which include credit risk, liquidity risk, currency risk, and interest rate risk.

Credit Risk

Credit risk arises from cash as well as credit exposures to counterparties of outstanding receivables and committed transactions. There is no significant concentration of credit risk other than cash deposits and amounts receivable. The Company's cash deposits are primarily held with a Canadian chartered bank and receivables are considered collectible, as well as GST due from the federal government. Therefore, credit risk is low.

Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities and the ability to pay obligations as they fall due. Financial liabilities, at April 30, 2020, included \$457,209 of accounts payable and accrued liabilities, notes payable, and lease obligations. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant and the Company has used an effective interest rate calculation to determine the fair value of certain notes payable.

Currency Risk

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company operates in Canada and Chile and a portion of the Company's expenses are incurred in U.S. dollars, Chilean pesos, and Unidad de Fomentos (Chilean monetary unit). A significant change in the currency exchange rates between the Canadian dollar relative to the U.S. dollar and Chilean peso would have an effect on the Company's results of operations, financial position or cash flows. The Company has not hedged its exposure to currency fluctuations.

As at April 30, 2020, the Company is exposed to currency risk through the following assets and liabilities denominated in U.S. dollars, Chilean pesos, and Unidad de Fomentos:

	U.S. Dollars	Chilean Pesos	Unidad de Fomentos	Total
Cash	\$ 34,938	\$ 2,009,494	\$ -	
Accounts payable and accrued liabilities	(8,016)	(27,915,122)	-	
Notes payable	(200,000)	-	-	
Lease liabilities - current	-	-	(305)	
Net exposure	(173,078)	(25,905,628)	(305)	
Canadian dollar equivalent	\$ (240,543)	\$ (43,108)	\$ (14,625)	\$ (298,277)

Notes to the Consolidated Financial Statements

14. FINANCIAL AND CAPITAL RISK MANAGEMENT (Continued)

Based on the above net exposures and assuming all other variables remain constant, a 10% depreciation or appreciation of the Canadian dollar against the U.S. dollar and Chilean peso would result in an increase/decrease of approximately \$29,800 in the Company's pre-tax loss.

Interest Rate Risk

When the Company has sufficient cash, it is invested in term deposits which can be reinvested without penalty after thirty days should interest rates rise. As at April 30, 2020, the Company did not have any interest-bearing loans in which the rates are subject to changes. Accordingly, the Company does not have significant interest rate risk.

Management of Capital

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its mineral properties. The Company relies mainly on equity issuances to raise new capital and on entering into joint venture agreements on certain properties which enables it to conserve capital and to reduce risk. In the management of capital, the Company includes the components of equity as well as cash. The Company prepares annual estimates of exploration and administrative expenditures and monitors actual expenditures compared to the estimates. The Company's investment policy is to invest its cash in savings accounts or highly liquid short-term deposits with terms of one year or less and which can be liquidated after thirty days without interest penalty. Management will need additional sources of working capital to continue its currently planned programs, by issuing new shares or through the sale of assets.

15. FINANCIAL INSTRUMENTS BY CATEGORY

Fair Values

The Company's financial instruments consist of cash, marketable securities, receivables, accounts payable and accrued liabilities, and notes payable. Classification of financial instruments depends on the purpose for which the financial instruments were acquired or issued, their characteristics, and the Company's designation of such instruments.

As at April 30, 2020, there were no changes in the classification of financial instruments in comparison to the year ended January 31, 2020. The Company has made the following classifications for its financial instruments:

	April 30, 2020	January 31, 2020
Financial assets		
Amortized cost:		
Cash	\$ 65,872	\$ 71,264
Receivables	13,386	16,823
Fair value through profit or loss:		
Marketable securities	207,303	1,057,303
	\$ 286,561	\$ 1,145,390
Financial liabilities		
Amortized cost:		
Accounts payable and accrued liabilities	\$ 164,980	\$ 1,467,202
Notes payable	277,964	4,851,124
	\$ 442,944	\$ 6,318,326

15. FINANCIAL INSTRUMENTS BY CATEGORY (Continued)

The Company characterizes inputs used in determining fair value using a hierarchy that prioritizes inputs depending on the degree to which they are observable. The three levels of the fair value hierarchy are as follows:

- Level 1: inputs represent quoted prices in active markets for identical assets or liabilities. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: inputs other than quoted prices that are observable, either directly or indirectly. Level 2 valuations are based on inputs, including quoted forward prices for commodities, market interest rates, and volatility factors, which can be observed or corroborated in the marketplace.
- Level 3: inputs that are less observable, unavoidable or where the observable data does not support the majority of the instruments' fair value.

As at April 30, 2020, there were no changes in the levels in comparison to the year ended January 31, 2020.

Financial instruments measured at fair value on the statement of financial position include marketable securities and are included in level 1 of the fair value hierarchy. The Atacama private company shares (Note 3) are valued within level 3 of the fair value hierarchy.

The carrying values of cash, receivables, accounts payable and accrued liabilities, and notes payable approximate their fair value because of the short-term nature of these instruments.

The key assumptions driving the valuation of the Company's private company investments include, but are not limited to, the value at which a recent financing was completed by the investee, significant changes in general market conditions and company specific information. For those investments valued based on general market condition and company specific information, these inputs can be highly judgmental.

16. SUPPLEMENTARY CASH FLOW INFORMATION

The significant non-cash investing and financing transactions during the three months ended April 30, 2020 included the following:

- a) Recognition of \$Nil (2019 - \$122,401) of right-of-use assets and lease liabilities related to the adoption of IFRS 16 leases;
- b) Recording the elimination of \$791,476 (2019 - \$Nil) of accounts payable and accrued liabilities and \$2,491,511 (2019 - \$Nil) in loans from the issuance of 21,886,581 (2019 - \$Nil) common shares; and
- c) Accrual of \$8,422 (January 31, 2019 - \$Nil) of shares issue costs included in accounts payable and accrued liabilities.

17. COMMITMENTS

As at April 30, 2020, the Company has a contractual obligation of \$14,265 (January 31, 2020 - \$36,317) in connection with a storage facility and office space in Chile. The full amount of the commitments are current with an option to extend the use of the facilities.

18. EVENTS SUBSEQUENT TO THE REPORTING DATE

In June 2020, Sociedad Quimica Y minera de Chile (NYSE: SQM) (“SQM”) terminated its options agreements entered into in April 2019 that allowed SQM to acquire up to an 80% interest in the Company’s Calvario and Mirador copper projects. Revelo continues to hold 100% interest in the projects and has paid the 2020 land costs to keep the licenses in good standing.

In May 2020, the Company signed a Binding Letter Agreement (“BLA”) with West Pacific Ventures Corp. (“WPV”), a private Canadian company, which will allow WPV to acquire a 100% interest in eight of the Company’s copper-focused projects including Arrieros, Block 2, Block 3, Block 4, Redondo-Veronica, Cerro Blanco, Cerro Buenos Aires, and Morros Blancos. Under the terms of the BLA, the Company will receive new shares in WPV that in turn will be exchanged for shares of a public company shell (“PubCo”). The transaction will result in a Reverse Take-Over (“RTO”) of PubCo, with the resulting company seeking to concurrently list on the Canadian Securities Exchange (“CSE”) after having raised a minimum of \$4,000,000. On closing of the RTO Revelo will hold 19.9% of the issued and outstanding shares of PubCo. Revelo received US\$125,000 in cash on signing of the BLA and will receive a further cash payment of US\$175,000 on signing of definitive documentation.
